About Me

I am a skilled software developer with 10 years of experience in creating and maintaining software applications. I specialize in Web and Mobile Development and have worked with clients in various industries to develop custom software solutions that meet their specific needs. I am highly skilled in Php, Laravel Framework, Node.Js, Tailwind, React, Python as well as database like MySQL, Postgre, NoSQL and am dedicated to delivering high-quality software that is both functional and user-friendly. With my strong problem-solving skills and attention to detail, I am confident that I can help you achieve your business goals through the power of technology. Contact me today to discuss your software development needs and how I can help you bring your ideas to life.

Work Experience

FullStack Software Engineer

Teko Philippines Fast & easy online booking. Immediate confirmation. Satisfaction guaranteed or money back! Book online in minutes. Affordable aircon, ref, washer, heater, TV & electrician services.

May 2024 to Present

- Full Stack Engineer, specializing in Laravel, CodeIgniter, Node.js, React, and Sass
- Leading the design, development, and maintenance of complex software applications and systems.
- Writing, testing, and deploying scalable code across both front-end and back-end environments using PHP, Laravel, CodeIgniter, Node.js, React, and Sass.
- Utilizing databases and data management tools to ensure seamless functionality.
- Collaborating with cross-functional teams to identify, troubleshoot, and solve software-related issues, improving system performance.
- Staying current with the latest software development trends and technologies to drive innovation and continuously enhance existing systems.

FullStack Software Engineer

- AWS (S3), Docker, Kubernetes, RabbitMQ

Version Control & CI/CD:

- Git, GitHub, GitLab

Other Tools:

- Redis, RabbitMQ

Education History

Bachelor of Science in Computer Science

University of Muntinlupa

Year of Graduation: 2014

- Choir Member of UM
- Best Application on Thesis
- Dean Lister 2012
- Dean Lister 2013
- Dean Lister 2014

Project Milestone

Project Leadership:

- Successfully led software projects, applying skills gained through continuous learning and practical experience.
- Obtained certification in project management methodologies, enhancing leadership capabilities.

Scalable System Design:

- Designed and developed scalable software systems using Node.js and MongoDB, refining skills through ongoing learning and experimentation.
- Earned certification in advanced web development technologies, validating proficiency in building robust, scalable solutions.

Code Quality Assurance:

- Implemented robust testing strategies and coding standards, continually refining practices through self-directed learning and industry best practices.
- Completed certification in software quality assurance, demonstrating expertise in ensuring code reliability and maintainability.

Cross-Functional Collaboration:

- Facilitated effective collaboration between teams, applying communication skills honed through workshops and practical experience.
- Obtained certification in agile methodologies, strengthening the ability to align technical solutions with business objectives in cross-functional environments.
